

# ***Ennovah*** ***Q-26 IP&IPC***

**Complete Telephone Integration System**

*User's Manual*

Rev. 1.0 - © Copyright 2004

*Congratulations on your purchase of the **Ennovah Q-26** system.*

*It means great convenience and keen security for your new, remodeled or existing home. It also spells savings and professionalism for your existing or future home office. As to the hobbyists, it just means fun.*

*For your convenience, this manual is written as comprehensively and repetitively as possible. To fully enjoy your Home/Office Telephone Integration Controller, follow these comprehensive step-by-step instructions described therein.*

*To install the Unit, you may either use the instructions from the **Quick Installation Guide** provided with this manual or the instructions presented at the beginning of this manual. When using the installation instructions from this manual, please read the **Installation and Programming Sections** completely **before** putting the Unit in operation. It is always preferable to follow the step-by-step instructions provided on the **Quick Installation Guide** to actually perform your installation and use the installation instructions in this manual as a reference. The **Quick Installation Guide** will expedite your installation for an enjoyable experience.*

## TABLE OF CONTENTS

<b>1</b>	<b>INSTALLING THE CONTROLLER.....</b>	<b>15</b>
1.1	INSTALLING THE ENNOVAH Q-26/IPC.....	15
1.1.1	<i>Wall Mounting the Unit.....</i>	16
1.1.2	<i>Plugging the Controller to the Power Line.....</i>	16
1.1.3	<i>Plugging the Controller and Phone Sets to the Phone Lines.....</i>	16
1.1.4	<i>Installing the Ennovah Unit in the Intercept Mode.....</i>	17
1.1.5	<i>How to Install the Controller for Multi-Line Applications.....</i>	18
